

ACT-707F/MC & ACT-707D Systems

Non-Interference Frequency List

Frequency Code: **ACTB-U656B / ACTC-U656B**

Frequency Range: **644~668 MHz**

VERSION: 3

GROUP 6B

**** Remarks:

- _ Test Frequencies: (Low): 91→(648.000MHz), (Center): 92→(656.000MHz), (High): 93→(664.000MHz)
- _ Interference might occur among groups. To reach interference-free operation, please use frequencies in the **same** group (ex. Group 1 only, Group 2 only, etc.)
- _ If interference occurs while using same group, please use another group for ALL receivers.
- _ Group 9 is for testing purposes. Please do not use the 3 channels simultaneously.

8 channel non-interference operation:

Each group has 8 non-interference channels from Group 2 to Group 4. When microphones are at least **3 meters** away from receivers, non-interference operation can be achieved.

16 channel non-interference operation:

Each group has 16 non-interference channels from Group 5 to Group 8. When microphones are at least **5 meters** away from receivers, non-interference operation can be achieved.

32 channel non-interference operation:

Group 7 or **Group 8** of different bands (same color in **BLUE** or **RED**) can be combined as 32 non-interference channels. When microphones are at least **8 meters** away from receivers,
