HANDHELD MICROPHONE TRANSMITTERS

MH-206 Quartz

VHF Handheld Single Frequency Transmitter with Condenser Element

Features:

- Ergonomic Design
- Extremely low handling-noise
- No shock noise during power switch on-off
- Durable steel grille resists impact damage when dropped
- Equipped with quality condenser microphone capsule, with frequency response tailored to vocal performance
- Low-battery warning
- Modular design allows easy disassembly for servicing
- 28-30 battery usage hours (9-volt)
- Polygonal "anti-roll" ring
- Integrated antenna

Specifications:

Channel	1-Fixed Frequency
Carrier Frequency Range	169-214 MHz
Deviation	± 15 KHz, with level limiting
Stability	$\pm 0.005\%$
S/N Ratio	> 102 dB
T.H.D.	$< 0.5\%$
Dynamic Range	> 110 dB
Battery	Standard 9V or rechargeable battery
RF Output	10 mW (according to regulation)
Spurious	< -45 dBc
Weight	7.4 oz 210 g
Dimensions	1.9" diameter x 9.2" L 49mm diameter x 234 mm L
