

Superlux[®] TOP 248/258 Professional Vocal Mic Series SuperCardioid Dynamic Mic

Description

The TOP-248/258 Series is constructed of the same superior components as the high-quality PRO-248 microphone, but has the additional feature of an enhanced lower frequency (60-240Hz) response specifically designed to produce a deeper and richer sound, especially in all vocal performances. The high sensitivity and extended frequency response of these microphones makes them ideal for all professional miking and project studio performances.

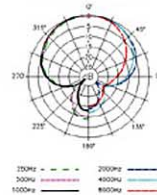

Features

TOP 248	TOP 258
Very good vocal frequency response	Extended frequency response
Excellent tone	High clarity in vocal performances
SuperCardioid polar pattern with high gain before feedback	SuperCardioid polar pattern with high gain before feedback
Ideal for vocal performances	Suited for vocal reinforcement and instrument recording

Note: Both Mics are provided with an HM-16 mic holder and a 5/8"x27T (Male) to 3/8"x16T (Female) screw adaptor
