

# HS-80 Dual Ear Headworn Microphone

With a capsule diameter of just 3 mm, the HS-80 provides a super low-profile combined with high-performance audio. This cardioid condenser headworn mic offers a lightweight dual ear design with a flexible adjustable boom that can be worn left or right. The dual ear hooks provide a very secure, inconspicuous and comfortable fit that provides maximum freedom of movement with or without glasses. The ear hooks feature a unique “Pull..Rotate..Release” design that enables the user to wear the boom on either side of the head and allows the ear hooks to fold flat when not in use.

The HS-80 comes with two screw-on replaceable audio cables, acoustically transparent windscreens and a MIPRO wireless bodypack adaptor. Additional optional adapters are available for use with Shure, AudioTechnica, AKG, Sennheiser, Electro Voice, Lectrosonics, Sony and other belt packs. Optional Red Dot, (RD), adaptors have a built in 15dB pad for use with MIPRO, AudioTechnica, AKG, Electro Voice and Shure belt packs.

The HS-80 is available in black or beige and ships in a leatherette case. The HS-80 is a comfortable dual ear headworn mic that is a perfect solution for House of Worship, Theater, Lecturers, Broadcast, Corporate A/V, and other applications where premium intelligible sound and low visibility are required.
